Winter, micro weddings are in, and we are so in love with them! Intimate ceremonies, candlelit receptions, and spaces filled with love and warmth (and flowers of course). We pride ourselves on creating dreamy floralscapes with an abundance of flowers, but we also understand that some people would prefer beautifully curated florals on a much smaller scale (and budget). We believe in quality over quantity, and want to be able to provide a small amount of arrangements that are of our best quality and design work. If this is starting to sound like you, we're excited to be offering wedding packages for you!

For the months of June, July, August and September of 2025 we will now be offering a small range of micro wedding packages.

How does it work?

All you have to do is choose your wedding package, and your preferred floral scheme (we have three different ones available), and we'll do the hard work for you. We work with seasonally available blooms, and pick the perfect colour combo to create ethereal flowers for your wedding. Leaving the planning solely to us, without the back and forth communication of our usual weddings means that we can lower the overall package cost.

If you're looking for a low stress wedding, with the floral finishes of a luxurious wedding, then this is the perfect option for you!
